- Temporomandibular (TMD) Disorders

- Arachnoiditis: Spinal Pain
Conditions we treat

- Complex Regional Pain Syndrome

- Phantom Limb Pain

Important

We are not using methylprednisolone in our practice. We do not buy the medications from compounding Pharmacy. We buy medications directly from the manufacturers. We are using Kenalog (Triamcinolone) in our practice, which we buy from Bristor-Myers Company. At present we (our patients) do not have any risk from epidural Steroid injections. Remember safety is our number one priority.
